Re: US patent application: 10/595,493 – Confirmation No.: 1507
Entitled: Tonometer
Docket No.: 147 06 01 NP US
1st named Inventor: Joshua GUR

In response to the Notification of Defective Response mailed December 9, 2009, notifying that the application search fee has not been paid, we wish to inform that the USPTO was the International Search Authority, and it appears that the problem arose from the fact that the USPTO/PCT office did not provide the search results until after the 30-month National Stage filing deadline.

Thus, we kindly request that the Notification of Defective Response be cancelled and documentation to that effect be noted in the prosecution file.

Sincerely,

/Joshua Gur/
